

### Protect Your Data

Protect your data from accidental deletion, Hard Disk Failure or Theft.

### Online Backup

Automated no hassle online backup. Set up and forget, the backup will automatically synchronise.

### Synchronisation

Rather than backing up the whole of your data every time which is a time consuming operation – synchronisation only backs up the changes since your last backup.

### Access your files anywhere

Use an FTP client, Windows explorer or our Web Interface, access to your music and data anywhere with an internet connection is possible.

# Online Data Backup – StorPal from *Palin-it*

## *Set up and Forget Online Backup Solution*

- One off fee for the software license
- Monthly fee for the data storage only
- Fast and easy to use software – “set and forget” solution
- Automatic E-mail notifications
- Synchronise technology no huge backup processing on every backup\*

One off software license fee £14.99 + VAT for desktop PC's. Monthly data storage fee £4.99 + VAT per 50Gb allocation. Please contact us for Server backup pricing.

Monthly payment option by Standing Order or Annual Payment available on predicted usage (additional usage invoiced separately). Debit / Credit Cards and Paypal accepted

\*Due to the nature of the backup service, the initial backup will be the entire contents of the data chosen which may take some considerable amount of time and in some cases depending on the size of the backup and your internet upload speed may take several days.
